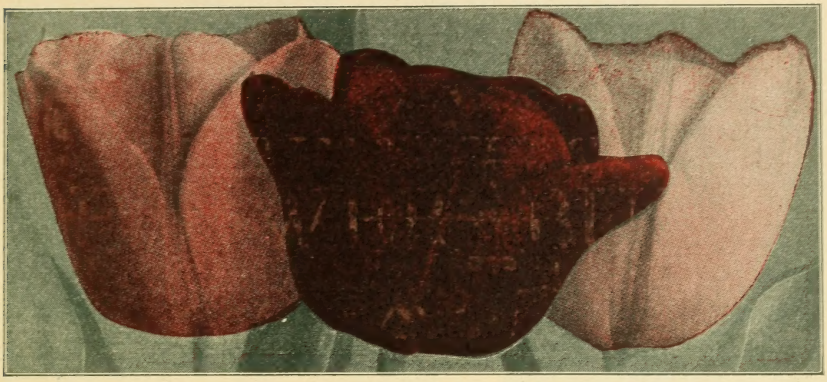
HENDERSON'S SINGLE EARLY BEDDING TULIPS (See page 8)



NEW GIANT DARWIN TULIPS THE TULIP ARISTOCRATS

The Darwin Tulips are exceedingly effective when grown in the garden or herbaceous border with a back ground of greenery. The beauty, hardiness and perpetuity of Darwin Tulips has made them very popular. As cut flowers they are unsurpassable, the long-stemmed bold, durable flowers having a dignity and character exclusively their own.

To aid in making selections of varieties for continuity of bloom, etc., we have indicated their relative time of flowering by the letters E, F, G, H and I. The E's being the earliest to bloom. The height is also given but may vary. The bulbs should be spaced about 5 inches apart and base of the bulbs should be 5 to 6 in. deep on heavy soils and 6 to 7 inches deep on light soils.

They may also be grown in pots in the house in winter, if grown cool and not forced into bloom before March. The varieties marked * are best for the purpose.

Henderson's

Late or May-Flowering Cottage Tulips

Cottage Tulips are so-called because many of them were found growing in the old cottage gardens of England, Scotland, Ireland and France where they had been established for 50 years or more. All are very beautiful, presenting a great variety in form and coloring, and having none of the stiffness of other tulips. For cutting they are greatly prized on account of their long stems and graceful habit. Being extremely hardy they are specially adapted for hardy flower borders, where they should be planted in large clumps and masses. To aid in making selections for continuity of bloom, etc., the relative time of flowering is indicated by the letters E, F, G, H and I. Those marked E being the earliest. Those marked I are the latest to bloom. The normal height is also given in inches. In planting the bulbs should be placed 5 inches apart and the bottom of the bulb should be 6 to 7 inches below the surface in light soils and 5 to 6 inches deep in heavy soils. If planted too shallow some may come blind. The varieties marked * are especially good for winter flowering and forcing.

PARROT or DRAGON TULIPS

(*See Illustration.*)

These belong to the late or May-flowering garden tulips, and have immense attractive flowers of singularly picturesque form and brilliant and varied colors. The petals are curiously fringed or lacinated on the edges, and the form of the flower, especially before it opens, resembles the head and neck of a parrot. Only the strongest bulbs of Parrot Tulips can be depended upon to flower. The smaller, younger bulbs often throw no flowers—or at best produce weak, sprawling stems, Our bulbs are the best Holland and produces.

BIZARRE TULIPS

One of the oldest races of Tulips, grown extensively in Europe during the seventeenth century. It is this class that is credited as being responsible for the famous tulip craze in 1635. Bizarre Tulips are all queerly striped and varigated; they belong to the May flowering group, and flower on tall stems.

Old Dutch Breeder Late or May Flowering Bulbs

The Old Dutch Breeder Tulips appeal to all tulip lovers on account of their sturdiness, large size, and beautiful "art colors." The colors of these tulips are most fascinating; including solid art colors (such as bronze, brown, buff, terra cotta) as well as many combinations of colors that are unsurpassably beautiful. In size they even outrival the popular Darwins. Under favorable conditions many sorts will grow over two and one half feet high and bear enormous flowers of ideal form and great substance. Due to the firm substance of which the flowers are composed, they will remain in perfect condition over a long period of time, either on the plants in the garden, or when cut for decorative purposes.

Old Dutch Breeder Tulips may also be successfully flowered in pots or pans of soil or fibre in the house in winter if not brought in from the cold frame or out-door plunge before the middle of January and then grown on cool and slowly in a temperature of about 60°. The early flowering ones—those marked F and G—will then flower in February and March—the later ones requiring a little more time. Too much heat is apt to cause them to grow spindling and inferior.

REMBRANDT TULIPS

These late or May-flowering garden tulips form a new class of stately beauty. They are in realty Darwin Tulips which have "broken" into permanent variegations—the flowers of various rich colors being striped, blotched and marked with different shades and colors. The flowers, large, of perfect form and lasting substance are borne on sturdy stems about two feet in height. These Rembrandts are very effective planted in groups in the herbaceous or shrubbery border and will remain 3 or 4 years without replanting. The cultural directions given for Darwin Tulips apply to these.

Apollo. Rosy lilac and white, striped dark carmine.
Butterfly. Soft lilac, deep carmine stripes.
Caracalla. Fiery and red-striped white.
Eros. Lilac and white striped dark.
Marc Spado. White flamed scarlet.
Red Prince. Rose flamed fiery-red.
Semele. Vivid rose-pink striped darker rose.
Victor Hugo. Bright carmine flamed white.

HENDERSON'S SUPERIOR DOUBLE EARLY TULIPS

Named Varieties including Beautiful Novelties

The letters A, B, C, etc., following the varieties indicate their earliness of bloom, the A's flower together and are the earliest; B's follow before the A's are out of bloom, etc. The height is indicated in inches to aid in arranging flower beds. When bedded it is generally advisable to use only one variety to a bed for best effect. The bulbs are planted 5 to 6 inches apart—and the depth should be according to the soil, in heavy soils 3 to 4 inches to the base of the bulbs and in light soils an inch or so deeper. Instructions for forcing in pots for Winter blooming will be found in our leaflet "How to Grow Bulbs" sent free with every order.

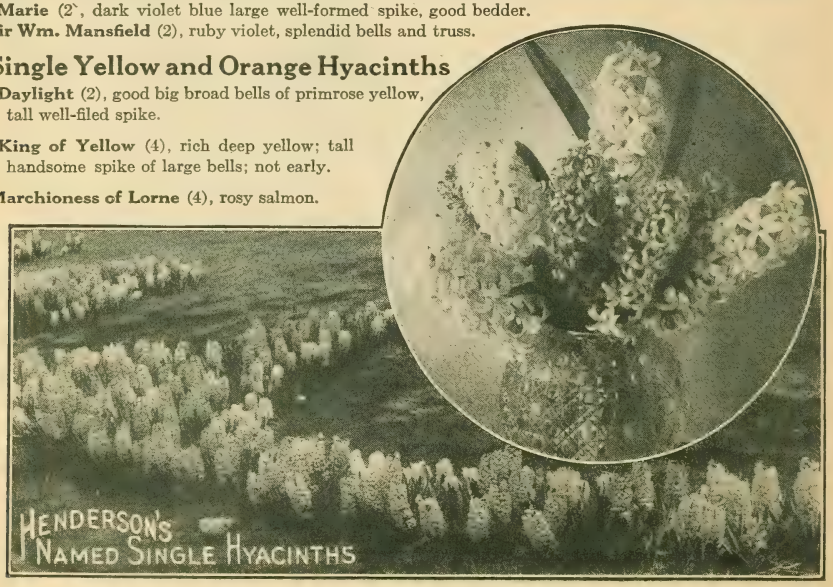
Marchioness of Lorne (4), rosy salmon.



DOUBLE DUTCH NAMED HYACINTHS

All Select First Size Bulbs, not "Seconds" that may be sold at a lower price.

Double Hyacinths are not as popular as the single-belled varieties; for as a class the "doubles" although their individual bells are large and beautiful do not make as well-filled trusses. For this reason we confine our list of varieties to a few of the very best. The figures 1, 2, 3 and 4 after the names of Hyacinths indicate the relative time of flowering—the 1'2 flower together and are the earliest; No. 4 the latest.

PRICE—30c. EACH, $3.00 PER DOZEN, $20.00 PER HUNDRED

DOUBLE WHITE AND TINTED HYACINTHS

Isabella (2), white suffused with rosy blush, enormous double bells and large well-filled spike.

La Tour d'Auvergne (1), an old favorite early variety and still hard to beat; double pure white bells on tall spike.

DOUBLE LAVENDER, BLUE AND PURPLE HYACINTHS

Blocksburg (4), light blue shaded darker blue; double bells on tall spike.

Von Speyk (2), lavender tinted with azure blue; fine compact spike of double bells.

HENDERSON'S "SPECIAL" HYACINTHS

FOR BEDDING OR POT CULTURE WITHOUT NAMES—CHEAPER THAN NAMED VARIETIES—FAR BETTER THAN MIXED

They are the same age as the first size Named Hyacinth offered by us from which these are the second selection. They are of great value for bedding in designs, enabling one to obtain the exact color effect desired. In beds, borders, etc., set the bulbs 5 to 6 inches apart and 4 inches deep measuring from the top of the bulb. They are much used for winter blooming in pots. Plant or pot hyacinth bulbs between September and the last of November—the earlier the better—as it gives them a longer period to make roots before winter sets in and the flowers will be better developed.

Plant 1 bulb in a 5-in. pot, 3 bulbs in a 6 or 7-in. pot, 6 or 7 bulbs in an 8-in. pot or pan.

EARLY ROMAN HYACINTHS

Roman Hyacinths are exceedingly popular and invaluable for winter flowering in the house in pots or pans, and are also extensively used for "forcing" for cut flowers. The white Roman Hyacinth is the earliest, best and most floriferous variety, though the pink, rose, and light blue are very beautiful and supply a variation of color.

They are all easily grown in pots of soil and if potted in September, the pots plunged in the open ground for a month until the bulbs are well rooted, and then brought in the house they can be had in flower in November or December, and from that time throughout the winter a continuous succession of delightful flowers may be enjoyed by bringing in from the plunge or cellar a pot or two of the rooted bulbs at intervals of about two weeks. A five-in. pot is large enough for 3 bulbs, a six-inch pot or pan for 6 bulbs, a seven-inch pot or pan for 8 bulbs. Roman Hyacinths are not hardy enough for open ground planting north of Washington, but where the winters are mild, especially if lightly protected with mulch they thrive excellently in the garden.

DUTCH ROMAN HYACINTHS

The smaller or three-year-old bulbs of some varieties of Dutch Hyacinths produce, considering their size, beautiful spikes of bloom, not as large nor furnished with as many bells as older full-sized bulbs but still so satisfactory for their low price that they are extensively grown for winter flowers, forced either in "flats" pans or pots. They may be had in flower from January on—thus succeeding the earlier French Romans. The bulbs may be placed very near together—say—an inch apart—requiring 7 or 8 bulbs for a 7-inch pan or 5 bulbs for a 5-inch pot or pan.

Six Bulbs of a Variety Sold at the Dozen Rate, 25 at the Hundred Rate

American Grown Narcissus, Daffodils and Jonquils

The varieties offered are all hardy, grow, increase and flower year after year. They may be grown in garden beds, in herbaceous borders, or grown as if wild in outlying portions of the grounds. The bulbs may be left undisturbed for several years on good loamy soils. The depth to plant varies according to the size of the bulbs—a covering of 2 to 3 inches of soil is about the average—a good rule is to cover the bulb one and a half times its own diameter. On light sandy soils plant deeper than on heavy soils. The distance apart should be 3 to 6 inches, according to size. Narcissus and Daffodils are also flowered in the greenhouse or window in pots, pans and flats of soil.

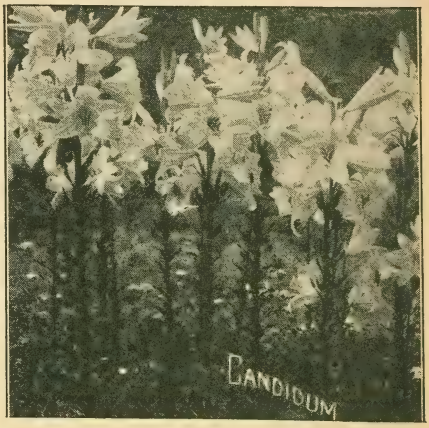
We supply 6 Bulbs of one variety at the dozen rate, 25 at the 100 rate.



HARDY LILIES

Lilies commence flowering in June and with the various species maintain a continuous and unbroken succession of the shrubbery border. Most Lily Bulbs, being of late maturity, are not ready before October, November and December (the best time to plant them). Where the ground is liable to freeze up before the late lilies arrive it should be mulched with 6 or 8 inches of leaves or manure to keep it from freezing, so the bulbs may be planted on arrival.

Auratum. (The Golden Rayed Lily of Japan.) The flowers are pure white, thickly studded with crimson spots, while through the centre of each petal runs a clear golden band. Fully expanded, the flowers measure nearly a foot across and possess a most delicious fragrance. Season of bloom from June to October. 3 to 5 feet.
Extra size bulbs.....50c. each; $5.00 doz.
Mammoth bulbs.....75c. each; $7.50 doz.

Candidum, Henderson's Superior Northern Grown. This is the ever popular fragrant, snow-white, hardy garden Lily, which is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in masses these lilies are especially effective against the surrounding greenery of shrubs, etc. Price, extra large bulbs, 50c. each; $5.00 doz.; $40.00 per 100.

Canadense. Our native Canadian Lily. Bright yellow marked with copious spots of red; blooms in June and July. 2 to 3 feet high. 25c. ea.; $2.50 doz.

Canadense Flavum. A pure yellow selection of the above. 25c. ea.; $2.50 doz.

Canadense Rubrum. Crimson with dark spots. 25c. ea; $2.50 doz.

Elegans Leonard Joerg. Rich apricot spotted. 30c. ea.; $3.00 doz.

Hansoni. (*The True Japanese Yellow Martagon.*) This is one of the best of the Martagon group, unsurpassed in vigor of growth and beauty by any other lily. The flowers are large, of a bright yellow, tinged orange and spotted maroon, with thick wax-like petals. Very robust and free. 75c. ea.; $7.50 doz.

Henryi. (*The Yellow Speciosum.*) A new rare and very beautiful Lily from China. It is very hardy, and without doubt one of the best Lilies for garden culture. The flower stalks, 3 to 5 feet high, carry 5 to 8 large flowers each, rich apricot-yellow, lightly spotted with brown. The shape and size of the flowers has suggested the name "Yellow Speciosum." 75c. ea.; $7.50 doz.

Regale ("A Royal Beauty"). The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow at the center, blending out part way up the trumpet. The fragrance is fascinating. A splendid hardy Lily for the garden, flowering about July 1st. Well-grown bulbs often produce five to eight blooms. $1.00 ea. $10.00 doz.

Speciosum or Lancifolium. The varieties of L. Speciosum or Lancifolium are perhaps the most popular Lilies grown. They are easy of cultivation, and produce large flowers of delicate beauty on strong stems; height, from 2 to 4 feet; blooming in August. The varieties are:

Speciosum Album. White. Largest bulbs, 60c. ea.; $6.00 doz.

Speciosum Rubrum (Roseum). White, shaded and spotted with rose and red. Largest bulbs, 60c. ea.; $6.00 doz.

Speciosum Melpomone. Rich blood-crimson, heavily spotted. Largest bulbs 60c. ea.; $6.00 doz.

Superbum. (*Turk's Cap Lily.*) One of our native species. Grown in good, rich soil, it will produce upwards of 50 beautiful orange, tipped red, spotted flowers in a pyramidal cluster. 3 to 5 feet high. Blooms in July. 30c. ea.; $3.00 doz.

Trigrinum Splendens. (*Improved Tiger Lily.*) The grandest of the Tigers, black polished stem, sometimes 6 feet high. Very large pyramids of flowers, orange red, spotted with black, 3 to 5 feet high. Blooms in August. 30c. each; $3.00 doz.

Tigrinum Flora Plena. (*Double Tiger Lily.*) Double bright orange-red flowers spotted with black. Blooms in August. 30c. ea.; $3.00 doz.

Umbellatum. Of strong, sturdy habit, growing from 2 to 3 feet high, having large showy flowers in clusters at the summit, flowering in June and July. The colors range through all shades of red from rose to blackish-crimson, yellow, buff, orange, etc., many being spotted. **Mixed colors.** 25c. ea.; $2.50 doz.

LILIES FOR FORCING IN POTS, ETC.

Bermuda Easter Lily *Lilium Longiflorum Harrisii*

The short time required to bring this peerless Lily into flower renders it invaluable. The flowers are delightfully fragrant pure waxy-white, and if cut when partially open, can be kept for two weeks. Bulbs potted in September can be had in flower in December, if desired.

A succession of bloom can be kept up throughout the winter by bringing in a few pots of bulbs from cold frames at intervals. Blooming plants in pots are suitable for Easter offerings and presents.

Bulbs Ready for Shipment—August to December. (*See illustration*).

First Size Bulbs. (*6 to 7 inches in circumference.*) Those are good bulbs for either pot culture or for cut flowers. The bulbs should produce from 6 to 8 flowers. 25c. ea.; $2.50 doz.; $18.00 per 100.

Extra Size Bulbs. (*7 to 9 inches in circumference.*) This is the most popular size to grow as pot plants for decoration and equally as valuable for cutting. Bulbs should produce from 8 to 12 flowers. 50c. ea.; $5.00 doz.; $36.00 per 100.

Monstrous Size Bulbs. (*9 to 11 inches in circumference.*) These are usually grown for specimens in pots, for exhibitions and decorations. Each bulb should produce from 12 to 18 flowers. 75c. ea.; $7.50 per doz.

Formosa Easter Lily *Lilium Longiflorum Formosum*

This is an improved type of the well known L. longiflorum also known as the "Easter or St. Joseph's Lily." The plants are of healthy strong growth—about 3 feet high and produce beautiful snow white trumpet shaped flowers, 6 to 8 inches long. This lily is largely grown by florists who "force" them as pot plants and for cut flowers. It is not quite as early as Lilium Harrisii. *For Shipment, September to December.*
Extra Size Bulbs, 7 to 9 inches. 40c. ea.; $4.00 doz.; $30.00 per 100.

Lilium Longiflorum Giganteum

This Japanese type is highly thought of for late winter and Easter forcing. The plant is of sturdy stocky growth—with black marked stems. The flowers of purest white are the largest of the longiflorums. *For Shipment October to December.*
Extra Size Bulbs, 7 to 9 inch. 40c. ea.; $4.00 doz.; $30.00 per 100.

BERMUDA EASTER LILY

Calla Lilies

Calla Aethiopica, or Lily of the Nile. This old favorite White Calla Lily is too well known to require any description. We offer dry roots, as they are superior for forcing and winter-flowering purposes; they come into bloom quickly and require less room making less foliage. Extra large bulbs, 35c. each, $3.50 per doz.

The Godfrey Everblooming Calla. This new hybrid is a true ever-blooming variety. A good plant, produces an astonishing quantity of large, snow-white, slightly fragrant flowers. Compared with the ordinary white Calla. it gives three flowers to one. The plant is of dwarf, compact, strong growth, about 18 inches high, with an abundance of dark green leaves. Dormant bulbs, 25c. ea., $2.50 per doz.

Yellow Calla, Elliotianna. The yellow Calla; large rich, deep golden flowers often 4 to 5 inches across at the mouth; habit of growth and foliage like the old favorite white Calla excepting the leaves of Elliotianna are spotted with white. Dry bulbs, 50c. ea., $5.00 per doz.

We supply 6 Bulbs of one variety at the dozen rate, 25 at the 100 rate

Spring Flowering Crocus

Including New Hybrid Varieties

As edgings to beds—and bordering walks—or as undergrowth among tulips, hyacinths, daffodils, etc., they are very effective as the flowers are over when the other bulbs begin blooming, and then the crocus foliage forms a beautiful grass like setting for the later flowering bulbs.

Crocus are also easily flowered in the house in winter, grown in pots and pans of soil. For instructions see leaflet "How to Grow Bulbs" sent with every order.

We have discontinued offering the cheap mixtures of Crocus as the larger bulbs—produce more and larger flowers. *(See illustration.)*

PRICE—50c. PER DOZEN $3.50 PER 100 $30.00 PER 1000

WHITE CROCUS

King of Whites. A grand new variety, producing long snow-white flowers.
May. Lovely round petalled pure white flowers of great size.
Mont Blanc. An old favorite, large pure white.

BLUE AND PURPLE CROCUS

Baron von Bruno. A large deep purple.
David Rizzio. Deep lavender shaded purple.
Hero. A new hybrid; dark glossy purple. Extra large and fine.
Maximilian. Beautiful sky-blue flowers, very distinct.

STRIPED CROCUS

Albion. A fine large lavender striped white and violet.
Cloth of Silver. White fathered and striped with lilac and purple.
Fantazy. A new hybrid; immense flowers of light gray striped dark blue.

YELLOW CROCUS

Cloth of Gold. The earliest of all, very prolific yellow veined golden brown.
Yellow Mammoth. The largest flowering sort of this color.

MIXED GIANT FLOWERING CROCUS

All colors and shades including many new hybrid seedlings so far outclassing the ordinary grade mixtures that we have discarded the latter. 30c. per doz.; $2.25 per 100; $20.00 per 1000.

Giant Hybride Amaryllis *"International Prize" Strain*

Awarded the Prize at the Flower Show, New York

The coloring and markings are exquisite; the bulbs are large, and are of sufficient strength and age to produce flowers during winter or spring. They are the most gorgeous bulbous plants known. They throw up spikes from 2 to 3 feet high, bearing enormous wide petalled flowers averaging 8 to 10 inches across and of great substance, some being of rich and glowing colors, others delicately shaded and superbly veined. **Mixed Varieties,** $1.00 each, $10.00 per doz.

Anemone

Highly ornamental winter, spring and summer flowering plants. They should be planted in cold frames as they are not entirely hardy in the northern states.

Giant "St. Brigid" Anemones. A new and greatly improved Irish variety bearing magnificent flowers, double, semi-double and single, 3 to 5 inches across, of the richest as well as the daintiest colors. There is maroon, bright scarlet, blood crimson, rose, pink, flesh color, mauve, blue, purple, yellow, cream, white, tinted, variegated, striped, zoned, etc., in endless variety. The flowers are borne freely on long stems and are charming. **Mixed colors.** 75c. per doz., $6.00 per 100.

Single Poppy-Flowered. *(Coronarea.)* Large, beautiful saucer-shaped Poppy-like blossoms flowering continuously throughout spring and early summer. **Mixed colors,** 60c. doz.; $4.50 per 100.

Chionodoxa *Glory of the Snow*

These are exquisite spring-flowering bulbs, and should be grown in quantities. They produce flower spikes bearing 10 to 15 lovely Scilla-like flowers. They are perfectly hardy, and may be planted as an edging to a bed, or naturalized in the lawn they are charming. They thrive well in any good garden soil, and are admirable for pot culture, winter blooming in the house.

Chionodoxa Lucillae. Bright blue with large clear white center (large cultivated bulbs). 50c. doz.; $3.50 per 100; $30.00 per 1000.

Chiondoxa Sardensis. Intense deep blue (large cultivated bulbs). 60c. doz.; $4.00 per 100. $35.00 per 1000.

Chiondoxa Gigantea. Unusually large flowers of lovely lilac-blue, with conspicuous white centre (large cultivated bulbs). 70c. doz.; $5.00 per 100.

CROWN IMPERIALS

Well-known spring-blooming, stately, hardy border plants, with clusters of immense pendant, bell-shaped flowers, surmounted with a tuft of green leaves. They are very effective, and if left undisturbed for years they form gigantic and picturesque groups, bearing gorgeously colored flowers.

Aurora. Red, 30c. each; $3.00 per doz.

Crown upon Crown. Several whorls of flowers one above the other, 30c. each; $3.00 per doz.

Sulphurea. Sulphur-yellow, 30c. each; $3.00 per doz.

Mixed Colors. 25c. each; $2.50 per doz.

HENDERSON'S SUPERIOR FREESIAS

Freesias are popular for pot culture, flowering in the winter and spring in the conservatory, or window garden. 6 to 8 bulbs should be planted in a 4-inch pot. They can be had in bloom by Christmas if desired, and by having a dozen pots started in the cold frame and brought in at intervals, keep up a display through the winter.

Purity. Produces large sprays of snow white flowers deliciously fragrant; free blooming and of great value for forcing for cut flowers. **Extra Size Bulbs,** 75c. per doz.; $5.00 per 100; $45.00 per 1000.

THE "FARDEL" COLORED FREESIAS

These beautiful novelties are winning favor on account of their lovely and unique colorings, shades of pink, mauve, purple, violet, blue, yellow and orange. Very fragrant and free flowering. Each principal spike usually carries 7 to 9 flowers—while the side spikes usually bear 5 to 6 flowers. Their culture differs in no way from that of the white Freesia. *(See illustration.)*

California. One of the finest yellow varieties. Color bright golden yellow. $1.00 per doz.; $7.50 per 100.

General Pershing. A beautiful shade of pinkiest lavender with yellow lip tinted bronze. $1.00 per doz.; $7.50 per 100.

Olivette. Bright carmine red in color with a yellow blotch on lower petals $1.00 per doz.; $7.50 per 100.

Mixed Hybrids. 75c. per doz.; $5.00 per 100.

Fritillaria Meleagris

Singular dwarf spring-flowering plants bearing, large pendant bell-shaped flowers of various colors, yellow, white, black, purple, striped and splashed and checkered in the most curious way. They are invaluable for pot culture and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation. **Mixed varieties,** 80c. doz.; $6.00 per 100.

Grape Hyacinths

These very curious and pretty little Hyacinths are perfectly hardy and of the easiest culture, they thrive and increase in either sunny or partially shaded positions in the garden. When naturalized in little colonies where they can remain undisturbed for several years, the effect—especially of the GrapeHyacinths—is very pretty, while as edgings they are most charming. All are also adapted for winter flowering in the house.

Blue Grape Hyacinths. 35c. per doz.; $2.50 per 100.

White Grape Hyacinths. $1.00 per doz.; $7.50 per 100.

"Heavenly Blue" Grape Hyacinths. A new type with larger flowers of richest gentian blue and delightfully fragrant; desirable for cutting and of splendid effect massed in the garden or border. 50c. per doz.; $3.50 per 100

Ixias

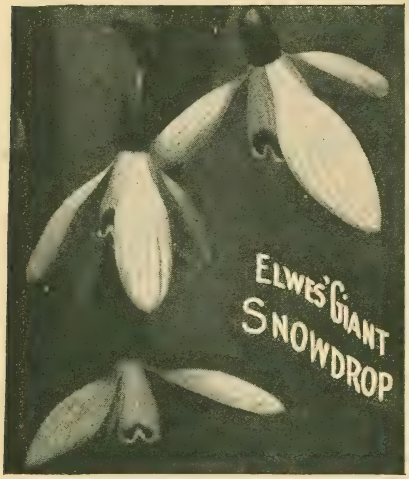
The Ixia is a beautiful little winter-flowering bulb, with long, slender, graceful spikes of bloom. The colors are rich, varied and beautiful, the centre always differing in color from the other parts of the flower, so that the blossoms, expanding in the sun's rays, present a picture of gorgeous beauty. **Mixed Colors,** 35c. per dozen; $2.50 per 100.

Lily of the Valley

(Ready for delivery in November.)

Henderson's Extra Single Crowns or "Pips." The finest grade of Crowns in the world for winter flowering. They will bear 12 to 16 large bells on strong stalks, *with foliage,* even when forced for extra early; the pips average large, plump and regular, with extra long roots. 25 Crowns (1 bundle) $2.00; 100 Crowns, $7.00; $60.00 per 1000.

Fortin's Giant. This is the largest variety yet produced; it is only adapted for open ground planting and may not show much superiority the first spring after planting, but by the second season, or when it gets well established, it produces wonderfully luxuriant foliage and immense spikes of purest white bells. Crowns, $1.00 per doz.; $7.50 per 100.



Oxalis

Charming little half-trailing or bushy plants particularly adapted for culture and hanging baskets, the foliage alone is very attractive and when in flower they are exceedingly pretty.

Bermuda Buttercup. This is one of the finest winter-flowering plants for pot culture, it is a strong luxuriant grower, and the great profusion of bloom produced in uninterrupted abundance for weeks is astonishing. The flowers are of the purest bright buttercup yellow. 5c. each; 50c. per doz.; $2.50 per 100.

Grand Duchess. A California variety of great beauty; of dwarf sturdy growth throwing large exquisite flowers well above the foliage. Extremely free-flowering from November till June. Price for either, **White, Pink or Lavender.** 5c. each; 50c. per doz.; $2.50 per 100.

Ranunculus

Among dwarf flowers these are unrivaled for form and attractive colors, ranging through shades of crimson, white, yellow, purple, black, many of them being beautifully marked with other shades. They flower profusely in pots in the house during the winter or if grown in frames in the spring. Remarkably vigorous growers with immense, and gorgeous, loosely double flowers. **Double Giant French Mixed,** 60c. doz.; $4.50 per 100.

Scilla (*Blue Bells*)

Scilla Siberica. (*Amoena or Praecox.*) Most beautiful hardy spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses, their flowers fairly carpet the ground; and if grown with Snowdrops and Crocus, for contrast, the effect is magnificent. They should be largely planted as undergrowth in Hyacinth beds, etc. Grown in pots they may be had in bloom from Christmas until April. 75c. per doz.; $5.00 per 100.

Siberica Alba. The new white flowering variety, very beautiful. 75c. doz.; $5.00 per 100.

Campanulata. (*Wood Hyacinth or Bluebell*). Flowers borne on tall spikes, 1 to 2 feet high. Each flower measures nearly one inch across and droops gracefully; perfectly hardy; also fine for pot culture. We offer the following colors. (*See illustration.*)

Major Blue. 60c. per doz.; $4.00 per 100. **Rose.** 80c. per doz.; $6.00 per 100.
White. 60c. per doz.; $4.00 per 100.

Snowdrops

Used as a permanent edging, and in masses on the edges of lawns, nestling in the grass, they look charming Snowdrops are easily flowered in pots during the winter. (*See illustration.*)

Single Snowdrops. 50c. per doz. $3.00 per 100.

Double Snowdrops. 80c. per doz.; $6.00 per 100.

Elwes' Giant Snowdrop. One of the finest of the genus, at least three times the size of the ordinary single Snowdrop; flowers slightly marked with green spots; fine for cutting. 60c. per doz.; $4.00 per 100

Winter Aconite
(*Eranthis Hyemalis*)

Early in spring the golden blossoms of the Winter Aconite look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrop, Scillas and Chionodoxa. The foliage remains long after the flowers, making the plant especially valuable in moist situations such as under trees, which the Winter Aconite enjoys and where few other flowering plants will thrive. 3 to 8 inches high. 35c. doz.; $2.50 per 100.

HENDERSON'S BULB CULTURE

Henderson's Perennial Flower Seeds for Summer Sowing

The great charm of Perennials lies in their permanence. Once established they are a constant source of pleasure, and the most interesting plants in our gardens, presenting a variety of form and color so great as to fit them for almost every purpose in the garden. Some may be made to thrive under most unkind conditions, while others require skillful cultivation.

A very large proportion of the Perennial plants that may be grown from seed have great values as cut flowers, because of their substance, which enables them to stand up well long after cutting.

Notwithstanding their individual charm, they are most effective when planted in a mixed border, where by arranging them according to height, color and season of flowering, an attractive display may be had from the earliest days of spring, all through the summer, and even after the first frosts herald the approach of winter. And so, week by week, as sure as the season revolves such a border will present new charms and revive old ones, the beauty of it growing with ever-increasing interest.

Perennials are generally raised from seed sown from early spring to about August 1st, in the latitude of New York.

Grown in this way they make strong plants which may be planted in a permanent situation early enough in the fall to enable them to winter safely. In some instances plants will flower the first year from seed if sown quite early, but nearly all require a year to reach their full development.

THE "HENDERSON" LAWN GRASS SEED is an intelligently arranged combination of fine-leaved, dwarf Grasses which are at their best during different months of the year, thus keeping a lawn constantly covered with enduring green. It is impossible to make an enduring lawn by sowing seed of a single variety, which will only grow vigorously for a portion of the year. Kentucky Blue Grass for instance, which is sometimes recommended for lawns, grows but sparsely during mid-summer, is slow to form a close sward, requiring two years to do that, and loses color in hot weather. Besides its country-wide use on the home grounds of the people, the **"Henderson" Lawn Grass Seed** has invariably been chosen to produce lawns at many famous institutions in the country.

THE "HENDERSON" LAWN GRASS SEED is sold 20 lbs. per bushel, being practically free from chaff and other foreign matter.

The quantity required for new lawns is 6 to 7 bushels per acre. For a plot 10 x 20, or 200 square feet, use 1 quart. For renovating old lawns, use one-half of above quantitites. Full instructions for sowing in every bag and package.

Price, 50c. per quart; $1.65 for 4 quarts; $3.00 per peck; $10.00 per bushel of 20 lbs.; $45.00 per 100 lbs. Transportation paid in the United States.
